

INCIDENT RESPONSE AND
MONITORING

Holistic SOC services

Delivering effective SOC's

The Need

Having a vigilant SOC team is a must in today's ever evolving cyber threat environment. However, building and maintaining a SOC is both complex and expensive. As such, organizations are looking to engage with experts who will advise them on the best approach to implement an effective SOC.

The Solution

HolisticCyber's SOC services help you effectively assess your current SOC team, properly train it and make sure it is fully skilled and capable of acting as the organization's guard dog, detecting cyber vulnerabilities on time and putting in motion the right prevention procedures. When needed, HolisticCyber also provides SOC-as-a-service.

What to Expect

- If there is a SOC in place, our nation state cyber-security experts will conduct a functionality assessment, including KPI definitions and assessments of maturity levels.
- We will provide enhancement recommendations for both processes and technological tools to support the SOC in its daily operations.
- Our experts will serve as personal SOC trainers, building a customized training plan that will close any detected gaps.
- HolisticCyber also offers a fully managed SOC, staffed by our cyber-security experts.

HolisticCyber – Defending what matters
